

To: Crick
cc: Franklin; Wilkins
I've had a thought.

**Yours,
Watson**

Francis Crick (Gonville & Caius College 1949) and James Watson (Clare College 1951) discover the double helix structure of DNA, building on the work of Rosalind Franklin (Newnham College 1941) and Maurice Wilkins (St John's College 1935) cam.ac.uk/YoursCambridge
